

PASSION & EVOLUTION

HOOK 3

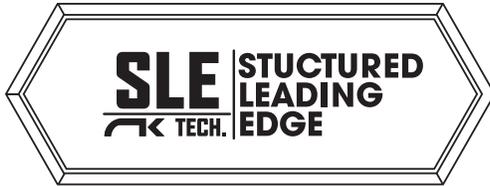

Progression · EN/LTF-B

ITS HIGH LEVEL OF COMFORT IN FLIGHT AND ITS GREAT EFFICIENCY MAKE THE HOOK 3 THE CUTTING EDGE WING IN THE EN B CLASS. THE HOOK 3 FEATURES THE LATEST TECHNOLOGY WHICH IS ACCESSIBLE TO ALL PILOTS. LET YOUR EMOTIONS SOAR WITH THE HOOK 3.

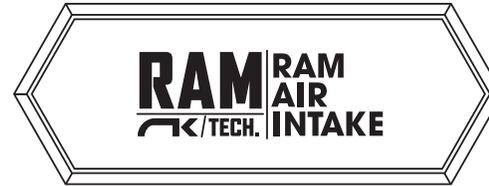

HOOK 3 TECHNOLOGY

SLE (Structured Leading edge)

ENG The SLE provides more rigidity and stability along the span of leading edge but also allows full flexibility along the both the vertical and horizontal axis of each open cell. It ensures ease of movement on the ground, easier launches and high security in the air during turbulence, and whilst flying at speed.

RAM air intake

ENG The RAM air intake allows an optimal position for the air intakes (below the leading edge of the glider aligned with the intrados) to gain turbulent air absorption in the leading edge, more consistency in variable speed and a better performance while assuring maximum security.

DRS (Drag Reduction Structure)

ENG The trailing edge has been reinforced with small ribs that make this part flatter in order to spread the pressure out evenly. It means better air-flow and less drag on this important part of the glider. The addition of these ribs gives the Hook 3 exceptional handling (better and more efficient when turning) and more control and precision.

3 LT (3 Liner Technology)

ENG Its powerful profile, a detailed internal architecture structure and the use of high-tech strength materials make possible a significant reduction of the total length of suspension lines in order to reduce the parasite resistance and the weight of the glider to gain efficiency.

FEEL THE FREEDOM

A privileged technology

When the experience of the past meets the innovation of the future the perfect balance is achieved. Equipped with the latest technology handed down from competition wings.

Higher performance and total comfort

The Hook 3's new features allow pilots enjoying total comfort in flight. Let yourself be guided by this high performance wing.

New emotions

The Hook 3 offers a new way of feeling the pleasure of flying. Dare to enjoy new experiences and feel new emotions.
